

WORLD ENVIRONMENT DAY questionnaire

We are participants of the UNESCO's Baltic Sea Project conference "Science of Changes". We are students from 9 countries of the Baltic Sea (Estonia, Latvia, Lithuania, Poland, Germany, Denmark, Sweden, Finland, and Russia). The purpose of this questionnaire is to get an idea of people's understanding of the Baltic Sea and environmental issues. The results of this questionnaire will be published on the conference blog: <http://bsp-science-of-changes.weebly.com/>

Sex	Age	Country
Informant 1: Male / Female	0-18 46-55 Informant 1:	Informant 1:
Informant 2: Male / Female	19-25 56-65 Informant 2:	Informant 2:
Informant 3: Male / Female	26-35 66-75 Informant 3:	Informant 3:
	36-45 75-...	

Please name 3 keywords that jump into your mind in connection with the Baltic Sea.

○ Informant 1:	○ Informant 2:	○ Informant 3:
1.	1.	1.
2.	2.	2.
3.	3.	3.

What do you think how big is the Baltic Sea if you compare the sea area with the area of Estonia which is 45 227,63 km². How many Estonia's can you put on the area of the Baltic Sea? (Just for you information: The area of the Baltic Sea is 373 000 m²).

Informant 1:	Informant 2:	Informant 3:
--------------	--------------	--------------

What do you think, how good or bad is the situation with the water of Baltic Sea.

Choose one: 1 - very bad, 2 - slightly bad, 3 - normal, 4 - good, 5-excellent, 6 - I have no idea.

Write down comments to explain.

What kind of YOUR everyday actions support environmental goals?

Today, June 5, we are celebrated the World Environment Day (WED). Meaning of this day is to raise global awareness to take positive environmental action to protect nature and the planet Earth. The WED theme this year is "Seven Billion Dreams. One Planet. Consume with Care." By 2050, if current consumption and production patterns remain the same and with a rising population expected to reach 9.6 billion, we will need three planets to sustain our ways of living and consumption. Living sustainably is about doing more and better with less.

V1 / V2 / V3

... / ... / ... Take part in annual clean-ups at the cost of the Baltic Sea (Let's do it world! movement)

... / ... / ... Buy those products and services that is wearing a fairtrade or eco label.

... / ... / ... Lead a collection of signatures and let municipalities, governments know that we must change our law (to protect the Baltic Sea) - become an activist!

- ... / ... / ... Write an article with my peeps to the local newspaper about my concern about the water quality.
- ... / ... / ... Go to university and become an environmental scientist.
- ... / ... / ... Use natural substances as cosmetics, to clean my home, wash my clothes, teeth etc.
- ... / ... / ... Walk and use bicycle as transportation.
- ... / ... / ... Use a cloth bag and little reusable plastics when I go shopping.
- ... / ... / ... Other:

Our conference ends on June 8, the World Ocean Day. We kindly invite you to participate in The Better Bag Challenge. If you take the Better Bag Challenge then promise not to take any disposable plastic bags for a whole year. Are you willing to try this for the whole next year?

Informant 1: <input type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Only during some time <input type="checkbox"/> Other:	Informant 2: <input type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Only during some time <input type="checkbox"/> Other:	Informant 3: <input type="checkbox"/> YES <input type="checkbox"/> NO <input type="checkbox"/> Only during some time <input type="checkbox"/> Other:

What do you think takes in your home most energy, name 3 items.

Do you know that households consume 29% of global energy and consequently contribute to 21% of resultant CO2 emissions. The cost of renewable energy is increasingly competitive with that derived from fossil fuels. One-fifth of the world's final energy consumption in 2013 was from renewables.

○ Informant 1: 1. 2. 3.	○ Informant 2: 1. 2. 3.	○ Informant 3: 1. 2. 3.
---	---	---

If you sometimes throw food away, what kind of food do you throw away most often?

1.3 billion tonnes of food is wasted every year while almost 1 billion people go undernourished and another 1 billion hungry. Overconsumption of food is detrimental to our health and the environment.
